

## Our Vision

Our vision for reconciliation is to be able to use our platform as an elite sporting club, with a vast and large supporter base, to be able to educate Australians about reconciliation. This vision involves strengthening our existing connections within the community as well as expanding into new regions and programs that will develop relationships between Aboriginal and Torres Strait Islander peoples and the wider Australian community. This will not only enable our club to develop programs towards reconciliation but will also encourage other organisations that we are connected with to do the same. By doing this, the Wests Tigers aim to raise reconciliation within Australia as an open discussion amongst all communities.
